Code of Conduct

The Board of School Trustees recognizes the paramount role of mutual respect among all individuals in the school district. Further, the Board expects and encourages this behaviour where it relates to those activities carried out under the jurisdiction of School District # 64.

By recognizing the paramount role of mutual respect among all individuals in the school district and consistent with the expectation and encouragement of such behaviour in all activities carried out in pursuit of the district mission, the board expects and encourages the following behaviour:

- ▶ **RESPECT**
That all individuals show respect for others including respect for their rights, beliefs, ideas, property.
- ▶ **RESPONSIBILITY**
That all individuals act responsibly and assume responsibility for their actions.
- ▶ **QUALITY**
That all individuals strive for high standards of achievement and behaviour.
- ▶ **HONESTY**
That all individuals act toward each other in an open and honest manner that stresses truth, justice and fairplay.
- ▶ **ATTITUDES**
That all individuals approach their responsibilities with a positive, caring and diligent attitude.

The board believes that in most situations the expectation, encouragement and reinforcement of desirable behaviour best reflect the intent of board policy. However, school and board procedures have been established to cover the exceptional situations involving certain categories of unacceptable behaviour.
