Policy Development and Implementation

Rationale: *The Board of Trustees of School District #64, (Gulf Islands), has a responsibility to provide leadership through education policy making consistent with the district Mission Statement.*

Policy Development and Implementation

Written Board Policy shall be developed in accordance with the *School Act* and other applicable Acts and Regulations, and reflect the community's priorities and objectives. Only such written statements adopted and recorded in the minutes shall be considered Policy.

- The school superintendent (or his/her designate) is accountable for effective implementation of School Board Policies.
- The Policy Committee is accountable for developing drafts of new policies and revisions of current policies and for regular review and evaluation of existing policies.
