Safety and Supervision of Student Activities

Rationale: *The Board of Trustees recognizes the value of outdoor education, educational field trips and extra-curricular activities. We believe that appropriate safety and supervision practices are essential to approval of such trips and activities.*

Policy:

The Board of Trustees authorizes the Superintendent of Schools to approve application for outdoor education and educational field trips that are of educational merit and where measures for the safety and supervision of the students participating are in compliance with school board policies and procedures. All student activities, curricular and extra-curricular, are subject to the standards established in the following procedure.
