Policy

The Board, as permitted by the *School Act*, will establish and maintain a system of student transportation that will qualify for the funding provided by the Ministry of Education. The Board may establish school bus routes where there is an adequate number of students to use this service subject to the availability of funds. In certain circumstances, as outlined in the procedure, the Bussette and private vehicles may form part of the transportation system. The Board will also provide water taxi services as outlined in Policy 700, *Water Taxi Service*.

Rationale: *The Board's transportation system is to provide safe, economical transportation for its students in accordance with the School Act, the Motor Vehicle Act, and its regulations, and this policy.*
