School District #64
Occupation Health and Safety Supervisor
Tom Graham
Re: Fire Safety Plans

Jan 23, 2008

Tom, further to our conversations regarding the FSP's for the school district, we have agreed to keep these "working documents". As new things arise, it may be necessary to implement changes more so than the yearly reviews by the school district. I appreciate the work that you and the school district have put into this document. It will only improve the fire and life safety aspects for the staff and the students. Thanks again.

Sincerely,

A handwritten signature in blue ink that reads "Dale Lundy".

Captain Dale Lundy
