District Procedure for Addressing Parent Concerns

Rationale: *To ensure fairness and respect in dealing with concerns that may arise between school staff and parents regarding their child's education.*

Policy:

Employee decisions relating to individual students shall be carried out in accordance with principles of fairness.

The Board of Education generally encourages concerns to be dealt with at the point closest to where the concern first arises. The appeal process shall enable good faith efforts to address concerns and resolve disputes to the mutual satisfaction of the parties involved.

The Board also recognizes that concerns about employee decisions that do not significantly affect the education, health or safety of a student are within the final authority of the Superintendent.
