Students and Employees with Communicable Diseases

***Rationale:** The Board recognizes that students have a right to receive a public education and employees have certain rights to work. The Board also recognizes that it has a responsibility to assure that schools provide a safe environment for all of its students and employees.*

Policy

Where students or employees are afflicted with a communicable disease, the Board directs the Superintendent of Schools to review each case on an individual basis including consultation with the Medical Health Officer to establish an appropriate course of action, based on the School Act sections 90, 91, 92.
