#### **Policy:**

As the corporate body elected by the voters, the Board of Education is responsible for the development of goals and policies to guide the provision of educational services to students attending District schools and programs, in keeping with the requirements of government legislation and the values of the electorate.

The board believes that its ability to discharge its governance and administration obligations is enhanced when leadership and guidance is both forthcoming from its membership, and when the superintendent of schools is assigned responsibility for overall administration of the District.
