

SCHOOL DISTRICT NO. 64

POLICY 6850 Public Use of School/District Property

*"Inspire learners, Integrate sustainability,
Involve community"*

Section: Finances and Facilities

Dates of Revisions: March 9, 1983

Date of Adoption and

Resolution Number: June 13, 2018 -76/18

Policy:

The School District No. 64 Board of Education has established policy and procedure concerning the control it must exercise over district property, in order to promote and sustain safe, orderly and productive learning and working environments, and to protect its assets. The board believes the best interests of the community are served when it both maintains this control, and promotes and facilitates community use of facilities and equipment, where this does not in any way compromise the delivery of educational programs to students.

Care and control of school facilities and equipment is delegated to school principals, who may make these available for use by the community, according to established procedures and joint-use agreements.
