Strategic Plan:

The board's mission is supported by successive strategic plans. These are established in consultation with our school communities and, on the basis of what is learned from regular and on-going review and revision, implemented cooperatively. The goals contained therein, though varying from time to time as needs and areas of focus change, will always reflect The board's Vision, Mission, and Values and its on-going commitment to providing learners with diverse and engaging learning opportunities leading to a future of fulfillment, joy and purpose.

In order to achieve each strategic goal, the Board directs senior and school-level administration to, in consultation with the board, identify specific objectives and the actions necessary to achieve them. As these are developed and ratified, they will be posted to the district website.
